

Energy Secretary Chris Wright,

Hello Sir, my name is David Richards and Richards American Defense Company is by business as one can determine by a verified proof of work that forms a unblockable chain of evidence starting from the commercial and government entity code: Niner, Mike, Yankee, Three, Eight; and following the facts forward or backwards through time or any other investigation source and method as need be. Richards American Defense has the same number of letters as Richards American Offense, and the same number spaces and words but off by two letters. The string Richards American is two eight letter words found on my officially delivery certificate as ordered by the Army officer commanding my deployment.

In nineteen ninety two I was nine and saw terminator two. It was also when I first saw the ocean too, and predetermined to see my mission through. On the way to Duck I rode in a monster truck. The truck was called the grave digger, and it can dig graves really very good. Like massive graves for commie tyrants who make lives a beech. I wasn't retarded or retardable even by an internetwork of obstructions, I'll fraking energetically disruptem with a bill of materials on a 10 kilometer foot pole.
